

## Framework for Evaluators: Improving Accuracy and Adding Value

When implemented well, AchieveNJ provides a vehicle for accurately evaluating teachers while providing them with substantive feedback that results in professional growth. This document provides strategies and tools to help school and district leaders evaluate teachers using AchieveNJ to improve their implementation of the system. The Department acknowledges and thanks the hundreds of educators across the state that have helped inform this document.

Goal	Best Practice	Core Competencies	Strategies (see corresponding resources in Tools column)	Tools
IMPROVE ACCURACY	All evaluators consistently produce educator practice and SGO scores that are valid reflections of educator efficacy.	<ol> <li>Evaluators and teachers share an accurate and complete understanding of the practice instrument and associated rubrics.</li> <li>Evaluators regularly recalibrate their scoring to avoid rater bias and to ensure scoring is accurately interpreted and consistently and appropriately applied in all classrooms.</li> <li>Evaluators adopt systems to support the development and accurate scoring of consistently high quality SGOs.</li> </ol>	<ul> <li>Required</li> <li>New evaluators and teachers participate in introductory training. (1, 3, 4)</li> <li>Returning evaluators and teachers participate in annual refresher training. (1, 3, 4)</li> <li>All evaluators participate in at least two coobservations. (1, 3, 4)</li> <li>Teachers develop SGOs in consultation with their supervisors. (1, 2, 3)</li> <li>Recommended</li> <li>District leadership, DEAC and ScIP make collaborative local decisions including establishing observation schedules and protocols for each component. (5, 6, 7)</li> <li>Leadership team regularly conducts accuracy and reliability activities throughout the year. (5, 9)</li> <li>Teams of administrators and teachers develop consistent and rigorous scoring protocols for SGOs that are aligned to existing or newly improved-aligned assessments.
